Columbus, O., Oct. 24.—Smith Herriott, aged twenty-three, was arrested near Delaware last night on a charge of attempting to murder his father, George Herriott, by shooting him with a revolver. The ball took effect over the left eye. Quarrels have been frequent between the parties for some time over an accusation of intimacy with a young woman made by the son against his father. The False Notions

Exist in the minds of many otherwise intelligent people as to the requirements of a disordered stomach or liver. The swallowing of nauseous and powerful drugs is the way to encourage, not to cure dyspepsia and liver complaint. Nor can a constipated or otherwise disordered condition of the bowels be remedied by similar treatment. That agreeable and thorough stomachic and aperient, Hostetter's Bitters, which is the reverse of unpleasant, and never produces violent effects, is far preferable to medicines of the class referred to. It infuses new vigor into a failing physique, cheers the mind while it strengthens the body, and institutes a complete reform in the action of the disordered stomach, bowels or liver. Appetite and sleep are both promoted, nature and kidney affections greatly benefited by its use. It is indeed a comprehensive and meritorious preparation, free from drawbacks of any kind.

Do You Believe It?

That in this town there are scores of persons passing our store every day whose lives are made miserable by Indigestion, Dyspepsia, Sour and Distressed Stomach, Liver Complaint, Constipation, etc., when for 75 cents we will sell them Shiloh's Vitalizer, guaranteed to cure them. The False Notions

Exist in the minds of many otherwise intelligent people as to the requirements of a disordered stomach or liver. The swallowing of nauseous and powerful drugs is the way to encourage, not to cure dyspepsia and liver complaint. Nor can a constipated or otherwise disordered condition of the bowels be remedied by similar treatment. That agreeable and thorough stomachic and aperient, Hostetter's Bitters, which is the reverse of unpleasant, and never produces violent effects, is far preferable to medicines of the class referred to. It infuses new vigor into a failing physique, cheers the mind while it strengthens the body, and institutes a complete reform in the action of the disordered stomach, bowels or liver. Appetite and sleep are both promoted, uterine and kidney affections greatly benefited by its use. It is indeed a comprehensive and meritorious preparation, free from drawbacks of any kind.

Do You Believe It?

That in this town there are scores of persons passing our store every day whose lives are made miserable by Indigestion, Dyspepsia, Sour and Distressed Stomach, Liver Complaint, Constipation, etc., when for 75 cents we will sell them Shiloh's Vitalizer, guaranteed to cure them. WE again remind Capt. HETTLER of the importance of advising with Engineer COOK and the water works trustees before any money is expended, as to the necessity of a reservoir. These officials will not blindly move in the matter against the advice of Capt. HETTLER.

JOSEPH E. McDONALD.

While Indiana is unquestionably democratic, yet the importance of carrying the state the coming campaign of 1880 is so great that it is especially necessary that a ticket should be placed in the field which on its face would be an assurance of success. None but the very strongest men in the party should be permitted to come to the front. All merely personal considerations should sink entirely out of sight, and only the general welfare of the country and of the party be kept steadily and continually in view. Mediocrity should stand aside and give place to men of pronounced views, acknowledged ability and well known and recognized qualities of popularity and leadership.

Many persons have been named as suitable candidates for governor of the state next year. Almost any of those named would be acceptable to the party and would doubtless discharge the important duties of the office creditably and satisfactorily. But something more than this is needed. We must have a candidate who can and will be elected beyond any and all manner of doubt. He must be such an one as can and will command the united, hearty and enthusiastic support of the entire party throughout the entire state. With such a candidate the democracy can and will win. Without such an one there may be doubt and failure.

In the emergency which is upon us the democracy of northern Indiana, and indeed of the whole state, are beginning to look toward Senator JOSEPH E. McDONALD, and they may demand that he shall be their candidate for governor next year. With him for their standard-bearer success will be assured from the beginning. He has long been recognized as a leader. He possesses the confidence of the people irrespective of party. He commands the respect of his party, not only in this state, but throughout the country. He is a positive man of pronounced views. He has never sacrificed principle to policy. He has never "worshipped false gods." His democracy is of the old-time unquestioned, unfaltering kind. There is never any difficulty in ascertaining his views or in knowing where he stands. His hold upon the people is stronger to-day than ever before. As our candidate for governor he can carry this state, despite all the concentrated efforts of our opponents, by a still greater majority than it was carried in the last election. Can as much be safely and certainly said of any other person whose name has been mentioned in connection with the candidature?

It may be urged that Senator McDONALD deserves to be and should be returned to the United States senate. This may be, doubtless is, true. But he owes enough to his party who have honored and trusted him so much in the past to make any sacrifice demanded at his hands in the interest of the general welfare of the party and of the country. He will doubtless make this sacrifice if called upon to do so. Everything now seems to indicate that this may be required of him. If so the party will do a wise and prudent thing. With Senator JOSEPH E. McDONALD at the head of our ticket the democracy of the entire country can rest assured that Indiana will certainly maintain her position in the line of battle so necessary to success in 1880.

THE REPUBLICAN PROTEST IN NEW YORK.

Mr. CURTIS, in an editorial article in *Harper's Weekly* of November 1st, again protests against the nomination of Mr. CORNELL. He says:

The objection to Mr. CORNELL made by protesting republicans, as we understand them, are not personal, but political. * * * The partisans who regard scratching as the unpardonable party sin are the enemies, not the friends, of the party. The protest is against the management which has done its utmost to defeat the party by straining party loyalty beyond endurance. Let us look at the actual situation under which the nominations were made. The voting population of New York is very great, amounting to nearly a million of people. Party divisions are exceedingly close. There is a large fluctuating and independent vote which is held very loosely by party ties, and which usually decides the election. The election of last year resulted in a republican plurality of about 35,000, but with a greenback vote of more than 70,000, which was very largely democratic, and which will return this year to the democratic fold. There is no practical issue between the parties upon the financial question, and Gov. ROBINSON is generally held to be an honest, economical and courageous officer, whose vetoes have been very acceptable to the great interior farming and tax paying interest, and to independent citizens generally, who mean to vote as they choose in the state this year, and at the national election next year.

STATE POLITICS.

The Huntington *Democrat* says:

Samuel J. Tilden, of New York, is our next choice for president, if our own honored Thomas A. Hendricks fails to receive the nomination.

The South Bend *Tribune* successfully gets off the following:

The Cincinnati *Enquirer* gets so much consolation out of the recent Ohio election that we begin to believe it could squeeze blood out of a turnip.

The Cincinnati *Gazette* says "It is to be regretted that Indiana does not hold an election this year. It would have flopped into the republican column." We'll make it all right next fall.

Huntington *Democrat*:

The men who howl the loudest about a "solid north" against a "solid south," are the same who sold out their party in Louisiana and gave the democracy a United States senator. What candid republican can indorse his party leaders with this villainous record?

Goshen *Democrat*:

The South Bend *Register* says that it "sincerely believes that John Sherman will be the next president of the United States." The *Register* is risking its reputation for sagacity against long and unnecessarily large odds. In about thirteen months its opinion on this subject will be of much greater value.

The Lagrange *Register*, in a very enthusiastic manner, has the following to say regarding the Hon. T. J. F.:

A man by the name of Foster, residing at Fort Wayne, and said to have been a state senator at one time, is very anxious to have a democratic paper started at Lagrange, possibly as a boost to his own political aspirations. Being too shrewd to risk his own *money* in the enterprise, he has been casting about to find some man unsophisticated enough to make the venture. The last of his would-be victims is Frank Snyder, of the Adams County *Union*. While we prefer that Foster himself should foot the bills for his own glory, yet if Frank has any desire to scatter his financial substance among our people, they are ready to receive it. Come, Frank; no town we know of offers better facilities for a first-class failure, in this respect, than Lagrange.

Judging from the following, the Lagrange *Register* is not very enthusiastic on Grant:

On being informed of the republican victory in Ohio last week, Gen. Grant expressed extreme gratification, and remarked that Gen. Ewing deserved defeat for "his false and dangerous financial doctrines." What profound financial wisdom lies in the brain of the man who made a decided financial failure in every business enterprise of his life, until he became rich by the gifts he received in exchange for political patronage, that the people placed in his hands for altogether different purposes. In fact, Gen. Grant knows as much of national finance as a goose does about algebra.

The Cincinnati *Enquirer's* Indianapolis correspondent mentions Col. W. W. Dudley, United States marshal; Gen. Dan Macauley, formerly mayor of Indianapolis, and Hon. A. G. Porter, at present comptroller of the treasury, in connection with the gubernatorial nomination. It says both Heilman and Tyner positively decline and that the latter also declines to run for congress. Of the democratic aspirants it says:

Hon. Frank Landers, on the democratic side, stood a fair show of nomination until Ewing's defeat, and that closed him out. He may not realize the fact, but his friends do, and see that too much "fiat" has been the death of him. Col. I. P. Gray, who was also formidable, was as green a greenbacker as Landers, and of course goes down in the ship with Landers. The Indiana plan of finance is among the things that were as a political factor. Next year the democracy of Indiana will accept the finances as they are, as the democratic party made them, and go into the battle on the live issues. Hon. J. D. New is the nearest a representative democrat to-day in the state, and as a consequence may be said to be far in the lead. The democracy of the north end of the state have always been a little hard on the money question, hence the bi-metallic views of Judge New will suit them. From all the indications which I can observe, he will be the next democratic nominee. Neither party cares to risk the chances on a weak and doubtful man, and the democracy will not if Gov. Hendricks should not be the presidential nominee.

PERSONAL.

Mrs. Scott-Siddons has separated from Mr. Siddons-Scott, but neither one is yet Scot free.

Mrs. Martha Potts, who, some months ago, started to walk from Philadelphia to New Orleans and back on a wager of $5,000, arrived in Philadelphia on Friday, having accomplished her task within the time she had allowed herself, which would have expired at 11 o'clock Sunday night.

The magnificent diamonds which were presented as a bridal gift to the daughter of Gen. Sherman by the khedive of Egypt, are kept in the vault of the United States treasurer, and their casket is sealed, so that the treasurer's clerks may not be put to the trouble of displaying them to visitors. The daughter, Mrs. Fitch, lives in St. Louis. She has three children, the oldest being a boy of four years.

Worth, the Paris man milliner, has a forewoman called Miss Mary, who is almost as widely known, locally, as himself. She is an English brunette, with a light and very graceful figure, and takes orders with the air of a queen. She is always arrayed in one of Worth's latest inspirations, and an admirer says that if she were clad in a tow bag, with a hempen cord round her waist, she would impart to the garb an air of subtle elegance which would render it attractive.

Edwin Booth is more unfortunate than other actors in the matter of interruptions from the audience. The attempted assassination by a crazy man in Chicago is still fresh, and now comes the report of an episode at Ford's Opera house, in Baltimore, on Wednesday night. Mr. Booth was acting in one of the most interesting passages in "Hamlet," when Peter Hall cried out from the gallery: "Booth's a d--n liar; I can act better than that man." Mr. Booth did not allow himself to be disconcerted a feather's weight. Hall, who had been drinking, was at once arrested and held to bail to answer.

E. D. Slater, of Dallas, Tex., has brought suit for divorce, and he wants it badly. His wife is charged with refusing to let him eat at the table unless he would first get on his knees and offer prayer; refusing to share her bed with him because he is unsanctified, because he is not regenerated and redeemed in her peculiar dogmas of faith; that he is in constant fear for the safety of his children; that she is unduly familiar with the preachers; that she at divers and unseemly hours permitted them to visit her for purposes of wrestling with her in prayer and holy exhortation; that she has permitted a preacher to imprint upon her lips alleged sanctimonious and godly kisses, and he prays for custody of children and judgment dissolving the marriage.

Mr. Whittier's own statement of the origin of his poem of "Maud Muller" is that he was driving with his sister through York, Me., and stopped at a harvest field to inquire the way. A young girl raking hay near the stone wall stopped to answer their inquiries. Whittier noticed as she talked that she bashfully raked the hay around and over her bare feet, and she was fresh and fair. The little incident left its impression, and he wrote out the poem that very evening. But if I had any idea," he said, "that the plaguey little thing would have been so liked, I should have taken more pains with it." To the inquiry as to the title "Maud Muller," he said it was suggested to him and was not a selection. It came as the poem came. But he gives it the short German pronunciation, as Meuler, not the broad Yankee Muller.

Mrs. Flood, the wife of Bonanza Flood, cannot be said to be precisely a lady of culture. It had not dawned upon her comprehension that anything more than a display of millinery was required to make a lady. So when her husband, who is an unlettered, good-hearted, commonplace person enough, struck his "bonanza," Mrs. Flood went down to the largest dry goods establishment in San Francisco to undergo a sea change into something rich and strange, as became the altered fortunes of her lord and master. What she wanted was—not grammar, but "good clothes." She had no immortal longings after science, but she wanted silks. She got them, too, running up such an astounding bill that one of the parvenue sisters of her soul, who had not heard of her sudden transition to the nouveau haute, exclaimed: "Why, Mrs. Flood, who pays for all this?" "Oh, Flood's struck a bozanza," with all the sang froid imaginable.

CRIMES AND CASUALTIES.

Burglars entered the store of L. E. Arler & Son, of Salem, O., Wednesday night, and left with $1,000 worth of goods. No arrests.

Wednesday a Miss Hubert, of Rochester, Pa., attempted to light a fire with kerosene, when the can exploded, burning her so seriously that she died from the effects.

Charles E. Schurles, who a short time since became notorious by the abduction of Townsend Davis, at Buffalo, N. Y., pleaded guilty to the charge Thursday, and was sentenced to the Auburn penitentiary for seven years.

Another unsuccessful attempt to wreck the B. & O. express at Tiffin, O., was made Thursday morning, by placing a rail across the track. Beyond the breaking of a break chain, no damage was done. The perpetrators of the dastardly act have not been apprehended.

Capt. P. D. Tyrrell, of the government service, has effected the capture of the notorious Fred B. Burbush, A. J. Thomas and his wife, John Sullivan, Henry Woods, Bernhardt Bosse, and Mrs. Whalen, who are accused of counterfeiting and putting into circulation bogus silver dollars and half-dollars, at the home of Jhonston, on Finney avenue, in the western suburbs of St. Louis.

FIRES.

A fire in Azua recently destroyed one hundred houses and stores valued at $200,000.

A fire in St. Jean Baptiste village, a suburb of Montreal, Thursday, destroyed twenty tenement houses and rendered two hundred people homeless. Loss $40,000, insurance small.

Bethany, W. Va., has for some time been the scene of several incendiary fires, and again on Thursday it was aroused by the bold attempt to burn the Bethany College at that place. The fire was started in the north wing, and owing to the scarcity of water, that portion of the building was totally destroyed. This portion of the building contained the three secretary halls and the college library. Five oil paintings presented to the library by Mr. Keene Richards, of Kentucky, comprise the entire property saved. These were valued at $10,000, but are badly damaged. The libraries were completely destroyed. The total loss is estimated at between $30,000 and $40,000, on which there was an insurance to the amount of $25,000.

NEWS NOTES.

Gen. Grant yesterday was presented with a cerificate of membership in the Sacramento Society of Pioneers.

The exchange of nineteen principal cities for the week ending October 18th, amounted to $10,327,173.75. The *Public* says this splendid record removes all doubts as to the improvement of business.

Five thousand persons attended the Yorktown (Va.) celebration Thursday. Military displays, processions, speeches and a grand barbecue were indulged in. A number of distinguished citizens from all parts of the country were present.

The official returns from Ohio give the total vote for governor as follows: Total vote 688,667, of which Foster (republican) received 336,261; Ewing (democrat) 319,132; Stewart (prohibition) 4,145; Preyer (national) 9,129. Foster's majority over Ewing 17,129.

FOREIGN FLASHES.

Specie in the Bank of France decreased 12,500,000 francs the last week. The rate of discount has been raised from 2 to 3 percent.

A St. Petersburg dispatch says it is evident that the state of siege in the disturbed districts will be maintained for another year at least.

A Paris dispatch says the prosecution of Humbert, the amnestied communist, has made him a popular hero. He will certainly be elected a member of the French chamber of deputies for one of the first vacancies in the radical constituences.

The special committee on Cuba reforms state that they rejected immediate emancipation because such a course would tend to a cessation of labor and outbreak of disturbances. A correspondent at Madrid hears unofficially that Premier Campos will support immediate abolition.

GENERAL RAILROAD NEWS.

Senator Joseph E. McDonald, John M. Butler and M. Parker, of Indianapolis, appear for the complainants, and ex-Gov. Hendricks, Conrad Baker and Judges Stevenson and Burke for the defendants. The trial will probably last two days.

United States Supreme Court.

In the United States supreme court, Thursday, arguments in the *habeas corpus* case of A. F. Clarke was heard. Clarke was found guilty and sentenced to pay a fine of $250, and to twelve months' imprisonment for violation of duty as judge of election of congressman in October, 1878. He asks release on the ground that the statutory laws, under which he was indicted, were invalid. Judge Hoadley, on behalf of Clarke, argued that the United States court had no authority to inflict a penalty on a state officer for violation of duty under a state law, and that congress had no power to attach a penalty to a violation of state law. In reply, Atty. Gen. Devens argued, first, that congress has full and unqualified power to regulate the manner of holding elections for members thereof; second, that this power includes authority to adopt whatever measures may be deemed necessary or expedient in conducting such election and determining suits therein; and, third, that congress can punish any violation of the laws enacted or adopted under such record.

THE INDIANS.

A Call for Help From the Governor of Colorado—Secretary Schurz's Reply—The Utes Killing Settlers on Ashley Fork.

Secretary Schurz has received the following telegram from the governor of Colorado:

Oct. 23.—To Hon. Carl Shurz, Secretary of the Interior, Washington: Information from southwestern Colorado satisfies me that most of the Ouray warriors were in the Thornburgh fight. To surrender the criminals Ouray proposed to surrender his tribe which he is powerless to do. They adhere to him for protection only, and will not submit to punishment, neither will they surrender the White River Utes, who are bound to them by the closest ties, and who are no less guilty than themselves. They whipped Thornburgh's command and now want redress. They take take no prisoners except women. Their trophies are not banners but scalps. If the policy of the military inactivity continues our frontier settlements are liable to become scenes of massacre. Unless the troops move against the Indians the Indians will move against the settlers. Must 300 miles of border settlements be subjected to this peril? The state cannot defend all this border except by attacking the enemy. On behalf of our people I present this danger to you, and urge that the government recognize that war with the barbarians now exist which involves of numerous exposed settlements. It can be terminated only by the most vigorous and uninterrupted warfare.
(Signed) FREDERICK W. PITKIN, Gov.

To this message the secretary telegraphed the following reply:

Department of the Interior, Washington, Oct. 23.—Gov. Pitkin, Denver: Your dispatch has been received. I entrusted with the important duty of special agent to the Utes, Gen. Charles Adams, a citizen of Colorado, who a month ago was represented to me by yourself as a gentleman of excellent character, uncommon ability and energy, intimately acquainted with the utes, and eminently qualified to deal with them in an emergency. He is with them now, and his last report was that none of the southern, and only a part of the White River Utes have been engaged in the trouble, and all rumors of the depredations are untrue, excepting the driving off of horses from Bear River, and this was before Ouray's order to cease fighting was received. Gen. Adams reports this after having traversed southwest Colorado. He also states that the captive women and children, whom I have assurances are safe, will be delivered. Troops should not proceed south from White River, as I believe that your conditions to secure peace will be complied with. This report of a responsible man, who has your confidence as well as mine, and who speaks from personal observation, is certainly entitled to credit. The liberation of the captive women and children is the first thing to be accomplished. Gen. Adams expects to bring them in in a few days. He will then also report on the surrender of the guilty Indians, meanwhile military preparations are not relaxed. We are endeavoring to prevent a general war with the whole tribe. It is, therefore, earnestly hoped that every effort will be made to prevent any unnecessary trouble which may be precipitated by inconsiderate action.
[Signed] C. SCHURZ, Secretary.

A man arrived at Ogden, Utah, from Park City who reported the Utah Utes and Snakes on the warpath, about three hundred warriors, settled on the Ashley Fork, were collecting together and building a fort.

Another man arrived from Green River Station, Union Pacific Railroad, who reports that the Utah Utes killed some settlers on Ashley Fork, and that they are coming toward Boroughs Hole, on the Green River.

Hon. George W. Frost, ex-agent of the Crow Indians, arrived and was honorably acquitted of charges made by the traders.

WISCONSIN WICKEDNESS.

Horrible Revelations Regarding the Milwaukee House of Correction.

A special dispatch to the Cincinnati *Enquirer* gives the details of recent developments in regard to the Milwaukee House of Correction. If the reports are true, the officers of this institution are the blackest hearted scoundrels of the century. These atrocious tales are told by a discharged convict who served two years on a charge of forgery. He claims that prisoners were subject to all manner of abuses, such as being fed on horseflesh, dogs, cats, etc., *ad nauseam*, and being placed in instruments of torture which even the devilish ingenuity of the inquisition could not equal.

In corroboration of his statements, the writer shows bones taken from meat that are those of dogs and horses, and fibers of bones that are from abortive calves. For weeks they were fed on bread made from horse feed, sawdust, mill sweepings, and plaster of Paris. The "bread" was nothing more than a putty dough; the meat was a mess of the most abominable putrefaction, and consisted generally of putrid pigs' feet, glandered horses that had died, bovine embryos and poisoned dogs.

The barbarities practiced are of the most revolting nature. The punishment was by placing prisoners in vises and burning them with hot irons; imprisonment in dark, subterranean damp cells for weeks, cruel flogging and cold baths in the dead of winter. A number of prisoners who disappeared and cannot be found are charged to the keepers, who either starved them to death or killed them outright by cruel and inhuman treatment. The sick were never allowed to see physicians, and were starved off as soon as possible to get them out of the way.

Infernal machines of torture were used. Huge strips of sole-leather, driven full of tacks were placed around their naked bodies, and other such never-before-heard-of brutalities. A few days ago a sick man was put in the black hole and was not removed until a corpse. This horrid hole where the prisoner was killed is an old dry well, five feet five inches in diameter, and of uncertain depth.

The kidnapping of outside persons, generally ignorant country people, is frequent, and they are taken into the prison to make chairs to fill contracts. As high as eight a day have been brought in and put to work, without coming into the city or allowed the specter of a trial.

A HINT TO WORKINGMEN.

The honest workingmen of the country, many of whom have large and increasing families to support, have been the chief sufferers from the great financial pressure under which we have labored for the past few years. Diminished wages have not been attended by a corresponding diminution in price of everything which the workingman needs. Rents, fuel, food and clothing, are cheaper, but these do not constitute all his necessities. It is sometimes necessary to employ a lawyer or a physician, yet the fee rates of physicians and lawyers are as high as they were in "flush" times. Yet cheap medicines are as necessary as cheap rents or fuel. Cheap medicines are not necessarily poor medicines. It must be obvious to every intelligent person that medicines, compounded and put up at wholesale, can be sold at much lower rates than when retailed from the doctor's pill bags. Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pellets have completely restored persons who had spent hundreds of dollars in vainly seeking relief from private practitioners, and all at a very slight expenditure.

BURNT AT SEA.

Rescue of Survivors of an Ocean Horror—Terrible Sufferings—Attacked by Sharks.

The captain of the steamer Louise, from Algiers, Africa, which has just arrived at New Orleans, reports that on the 18th inst he picked up in the Bahama channel seventeen survivors of the burned steamer Newero Pajaro Del Oceano, including Capt. Diaz and two mates. The steamer had a crew of forty-two and about twenty passengers aboard when the calamity occurred. The rescued were in a terrible state of exhaustation, having been clinging to floating planks for eighteen hours. The steamer left Havana October 16th for Nuevitas with a general cargo of grain, provisions and amunition for the Spanish army. About 4 o'clock a. m., October 18th, when the vessel was in the Bahama straits, it took fire amidship, burned to the water's edge, and sunk in less than four hours. There were on board forty-two, of the crew twenty-three, and seventeen or twenty passengers, including six officers and soldiers of the Spanish army. The Luise picked up seventeen of the unfortunates, including the captain, two mates and one soldier. Of this number, the captain and five or six of the crew were burned and otherwise injured. They were almost naked and in a fearful state from their long exposure to sun and water. Doubtless many were eaten by sharks, for the second mate and companion who were floating with a plank to support them had a narrow escape from one. Thirty-three of the passengers and crew are still missing.

SLAVERY IN CUBA.

Outline of Bills for Emancipation to be Presented to the Spanish Cortez.

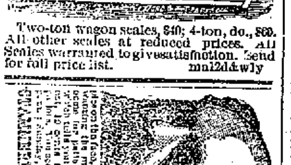

The bill for the abolition of slavery in Cuba, to be presented to the Spanish cortez, provides that slaves aged 55 years and over shall become free immediately; those aged 50, in September, 1880; those aged 45, in '82; those aged 40, in 84; those aged 35, in 86; those aged 30, in 88; and all others in 89. From 1880, 100,000 piasters will be charged on the Cuban budget for defraying the expenses of emancipation; 350 piasters will be paid to the owners of each slave. The government will, as much as possible, favor the immigration of free laborers to the island. The committee on reforms in Cuba have unanimously approved a bill providing that trade between Spain and Cuba shall only pay coasting duties, which shall be reduced one-third from the 1st of July, 1880, and entirely abolished in '83; also in favor of a moderate, differential duty bill, also to reduce by one-third, for a period of three years, duties on articles for consumption imported into Cuba, and to establish relations with the United States with a view of developing Spanish maritime trade between Cuba, Porto Rico and the United States.

JOSEPH E. McDONALD.

While Indiana is unquestionably democratic, yet the importance of carrying the state the coming campaign of 1880 is so great that it is especially necessary that a ticket should be placed in the field which on its face would be an assurance of success. None but the very strongest men in the party should be permitted to come to the front. All merely personal considerations should sink entirely out of sight, and only the general welfare of the country and of the party be kept steadily and continually in view. Mediocrity should stand aside and give place to men of pronounced views, acknowledged ability and well known and recognized qualities of popularity and leadership.

Many persons have been named as suitable candidates for governor of the state next year. Almost any of those named would be acceptable to the party and would doubtless discharge the important duties of the office creditably and satisfactorily. But something more than this is needed. We must have a candidate who can and will be elected beyond any and all manner of doubt. He must be such an one as can and will command the united, hearty and enthusiastic support of the entire party throughout the entire state. With such a candidate the democracy can and will win. Without such an one there may be doubt and failure.

In the emergency which is upon us the democracy of northern Indiana, and indeed of the whole state, are beginning to look toward Senator JOSEPH E. McDONALD, and they may demand that he shall be their candidate for governor next year. With him for their standard-bearer success will be assured from the beginning. He has long been recognized as a leader. He possesses the confidence of the people irrespective of party. He commands the respect of his party, not only in this state, but throughout the country. He is a positive man of pronounced views. He has never sacrificed principle to policy. He has never "worshipped false gods." His democracy is of the old-time unquestioned, unfaltering kind. There is never any difficulty in ascertaining his views or in knowing where he stands. His hold upon the people is stronger to-day than ever before. As our candidate for governor he can carry this state, despite all the concentrated efforts of our opponents, by a still greater majority than it was carried in the last election. Can as much be safely and certainly said of any other person whose name has been mentioned in connection with the candidature?

It may be urged that Senator McDONALD deserves to be and should be returned to the United States senate. This may be, doubtless is, true. But he owes enough to his party who have honored and trusted him so much in the past to make any sacrifice demanded at his hands in the interest of the general welfare of the party and of the country. He will doubtless make this sacrifice if called upon to do so. Everything now seems to indicate that this may be required of him. If so the party will do a wise and prudent thing. With Senator JOSEPH E. McDONALD at the head of our ticket the democracy of the entire country can rest assured that Indiana will certainly maintain her position in the line of battle so necessary to success in 1880.

THE REPUBLICAN PROTEST IN NEW YORK.

Mr. CURTIS, in an editoriol article in *Harper's Weekly* of November 1st, again protests against the nomination of Mr. CORNELL. He says:

The objection to Mr. CORNELL made by protesting republicans, as we understand them, are not personal, but political. * * * The partisans who regard scratching as the unpardonable party sin are the enemies, not the friends, of the party. The protest is against the management which has done its utmost to defeat the party by straining party loyalty beyond endurance. Let us look at the actual situation under which the nominations were made.

The voting population of New York is very great, amounting to nearly a million of people. Party divisions are exceedingly close. There is a large fluctuating and independent vote which is held very loosely by party ties, and which usually decides the election. The election of last year resulted in a republican pleurality of about 35,000, but with a greenback vote of more than 70,000, which was very largely democratic, and which will return this year to the democratic fold. There is no practical issue between the parties upon the financial question, and Gov. ROBINSON is generally held to be an honest, economical and courageous officer, whose vetoes have been very acceptable to the great interior farming and tax paying interest, and to independent citizens generally, who mean to vote as they choose in the state this year, and at the national election next year.

STATE POLITICS.

The Huntington *Democrat* says:

Samuel J. Tilden, of New York, is our next choice for president, if our own honored Thomas A. Hendricks fails to receive the nomination.

The South Bend *Tribune* successfully gets off the following:

The Cincinnati *Enquirer* gets so much consolation out of the recent Ohio election that we begin to believe it could squeeze blood out of a turnip.

The Cincinnati *Gazette* says "it is to be regretted that Indiana does not hold an election this year. It would have flopped into the republican column." We'll make it all right next fall.

Huntington *Democrat*:

The men who howl the loudest about a "solid north" against a "solid south," are the same who sold out their party in Louisiana and gave the democracy a United States senator. What candid republican can indorse his party leaders with this villainous record?

Goshen *Democrat*:

The South Bend *Register* says that it "sincerely believes that John Sherman will be the next president of the United States." The *Register* is risking its reputation for sagacity against long and unnecessarily large odds. In about thirteen months its opinion on this subject will be of much greater value.

The Lagrange *Register*, in a very enthusiastic manner, has the following to say regarding the Hon. T. J. F.:

A man by the name of Foster, residing at Fort Wayne, and said to have been a state senator at one time, is very anxious to have a democratic paper started at Lagrange, possibly as a boost to his own political aspirations. Being too shrewd to risk his own money in the enterprise, he has been casting about to find some man unsophisticated enough to make the venture. The last of his would-be victims is Frank Snyder, of the Adams County *Union*. While we prefer that Foster himself should foot the bills for his own glory, yet if Frank has any desire to scatter his financial substance among our people, they are ready to receive it. Come, Frank; no town we know of offers better facilities for a first-class failure, in this respect, than Lagrange.

Judging from the following, the Lagrange *Register* is not very enthusiastic on Grant:

On being informed of the republican victory in Ohio last week, Gen. Grant expressed extreme gratification, and remarked that Gen. Ewing deserved defeat for "his false and dangerous financial doctrines." What profound financial wisdom lies in the brain of the man who made a decided financial failure in every business enterprise of his life, until he became rich by the gifts he received in exchange for political patronage, that the people placed in his hands for altogether different purposes. In fact, Gen. Grant knows as much of national finance as a goose does about algebra.

The Cincinnati *Enquirer's* Indianapolis correspondent mentions Col. W. W. Dudley, United States marshal; Gen. Dan Macauley, formerly mayor of Indianapolis, and Hon. A. G. Porter, at present comptroller of the treasury, in connection with the gubernatorial nomination. It says both Heilman and Tyner positively decline and that the latter also declines to run for congress. Of the democratic aspirants it says:

Hon. Frank Landers, on the democratic side, stood a fair show of nomination until Ewing's defeat, and that closed him out. He may not realize the fact, but his friends do, and see that too much "fiat" has been the death of him. Col. I. P. Gray, who was also formidable, was as green a greenbacker as Landers, and of course goes down in the ship with Landers. The Indiana plan of finance is among the things that were as a political factor. Next year the democracy of Indiana will accept the finances as they are, as the democratic party made them, and go into the battle on the live issues. Hon. J. D. New is the nearest a representative democrat to-day in the state, and as a consequence may be said to be far in the lead. The democracy of the north end of the state have always been a little hard on the money question, hence the bi-metallic views of Judge New will suit them. From all the indications which I can observe, he will be the next democratic nominee. Neither party cares to risk the chances on a weak and doubtful man, and the democracy will not if Gov. Hendricks should not be the presidential nominee.

PERSONAL.

Mrs. Scott-Siddons has separated from Mr. Siddons-Scott, but neither one is yet Scot free.

Mrs. Martha Potts, who, some months ago, started to walk from Philadelphia to New Orleans and back on a wager of $5,000, arrived in Philadelphia on Friday, having accomplished her task within the time she had allowed herself, which would have expired at 11 o'clock Sunday night.

The magnificent diamonds which were presented as a bridal gift to the daughter of Gen. Sherman by the khedive of Egypt, are kept in the vault of the United States treasurer, and their casket is sealed, so that the treasurer's clerks may not be put to the trouble of displaying them to visitors. The daughter, Mrs. Fitch, lives in St. Louis. She has three children, the oldest being a boy of four years.

Worth, the Paris man milliner, has a forewoman called Miss Mary, who is almost as widely known, locally, as himself. She is an English brunette, with a light and very graceful figure, and takes orders with the air of a queen. She is always arrayed in one of Worth's latest inspirations, and an admirer says that if she were clad in a tow bag, with a hempen cord round her waist, she would impart to the garb an air of subtle elegance which would render it attractive.

Edwin Booth is more unfortunate than other actors in the matter of interruptions from the audience. The attempted assassination by a crazy man in Chicago is still fresh, and now comes the report of an episode at Ford's Opera house, in Baltimore, on Wednesday night. Mr. Booth was acting in one of the most interesting passages in "Hamlet," when Peter Hall cried out from the gallery: "Booth's a d—n liar; I can act better than that man." Mr. Booth did not allow himself to be disconcerted a feather's weight. Hall, who had been drinking, was at once arrested and held to bail to answer.

E. D. Slater, of Dallas, Tex., has brought suit for divorce, and he wants it badly. His wife is charged with refusing to let him eat at the table unless he would first get on his knees and offer prayer; refusing to share her bed with him because he is unsanctified, because he is not regenerated and redeemed in her peculiar dogmas of faith; that he is in constant fear for the safety of his children; that she is unduly familiar with the preachers; that she at divers and unseemly hours permitted them to visit her for purposes of wrestling with her in prayer and holy exhortation; that she has permitted a preacher to imprint upon her lips alleged sanctimonious and godly kisses, and he prays for custody of children and judgment dissolving the marriage.

Mr. Whittier's own statement of the origin of his poem of "Maud Muller" is that he was driving with his sister through York, Me., and stopped at a harvest field to inquire the way. A young girl raking hay near the stone wall stopped to answer their inquiries. Whittier noticed as she talked that she bashfully raked the hay around and over her bare feet, and she was fresh and fair. The little incident left its impression, and he wrote out the poem that very evening. But if I had any idea," he said, "that the plaguey little thing would have been so liked, I should have taken more pains with it." To the inquiry as to the title "Maud Muller," he said it was suggested to him and was not a selection. It came as the poem came. But he gives it the short German pronunciation, as Meuler, not the broad Yankee Muller.

Mrs. Flood, the wife of Bonanza Flood, cannot be said to be precisely a lady of culture. It had not dawned upon her comprehension that anything more than a display of millinery was required to make a lady. So when her husband, who is an unlettered, good-hearted, commonplace person enough, struck his "bonanza," Mrs. Flood went down to the largest dry goods establishment in San Francisco to undergo a sea change into something rich and strange, as became the altered fortunes of her lord and master. What she wanted was—not grammar, but "good clothes." She had no immortal longings after science, but she wanted silks. She got them, too, running up such an astounding bill that one of the parvenue sisters of her soul, who had not heard of her sudden transition to the nouveau haute, exclaimed: "Why, Mrs. Flood, who pays for all this?" "Oh, Flood's struck a bonanza," with all the sang froid imaginable.

CRIMES AND CASUALTIES.

Burglars entered the store of L. E. Arter & Son, of Salem, O., Wednesday night, and left with $1,000 worth of goods. No arrests.

Wednesday a Miss Hubert, of Rochester, Pa., attempted to light a fire with kerosene, when the can exploded, burning her so seriously that she died from the effects.

Charles E. Schurles, who a short time since became notorious by the abduction of Townsend Davis, at Buffalo, N. Y., pleaded guilty to the charge Thursday, and was sentenced to the Auburn penitentiary for seven years.

Another unsuccessful attempt to wreck the B. & O. express at Tiffin, O., was made Thursday morning, by placing a rail across the track. Beyond the breaking of a break chain, no damage was done. The perpetrators of the dastardly act have not been apprehended.

Capt. P. D. Tyrrell, of the government service, has effected the capture of the notorious Fred B. Burbush, A. J. Thomas and his wife, John Sullivan, Henry Woods, Bernhardt Bosse, and Mrs. Whalen, who are accused of counterfeiting and putting into circulation bogus silver dollars and half-dollars, at the home of Jhonston, on Finney avenue, in the western suburbs of St. Louis.

FIRES.

A fire in Azua recently destreyed one hundred houses and stores valued at $200,000.

A fire in St. Jean Baptiste village, a suburb of Montreal, Thursday, destroyed twenty tenement houses and rendered two hundred people homeless. Loss $40,000, insurance small.

Bethany, W. Va., has for some time been the scene of several incendiary fires, and again on Thursday it was aroused by the bold attempt to burn the Bethany College at that place. The fire was started in the north wing, and owing to the scarcity of water, that portion of the building was totally destroyed. This portion of the building contained the three secretary halls and the college library. Five oil paintings presented to the library by Mr. Keene Richards, of Kentucky, comprise the entire property saved. These were valued at $10,000, but are badly damaged. The libraries were rompletely destroyed. The total loss is estimated at between $30,000 and $40,000, on which there was an insurance to the amount of $25,000.

NEWS NOTES.

Gen. Grant yesterday was presented with a cerificate of membership in the Sacramento Society of Pioneers.

The exchange of nineteen principal cities for the week ending October 18th, amounted to $10,327,173.75. The *Public* says this splendid record removes all doubts as to the improvement of business.

Five thousand persons attended the Yorktown (Va.) celebration Thursday. Military displays, processions, speeches and a grand barbecue were indulged in. A number of distinguished citizens from all parts of the country were present.

The official returns from Ohio give the total vote for governor as follows: Total vote 668,667, of which Foster (republican) received 336,261; Ewing (democrat) 319,132; Stewart (prohibition) 4,145; Preyer (national) 9,129. Foster's majority over Ewing 17,129.

FOREIGN FLASHES.

Specie in the Bank of France decreased 12,500,000 francs the last week. The rate of discount has been raised from 2 to 3 percent.

A St. Petersburg dispatch says it is evident that the state of siege in the disturbed districts will be maintained for another year at least.

A Paris dispatch says the prosecution of Humbert, the amnestied communiest, has made him a popular hero. He will certainly be elected a member of the French chamber of deputies, for one of the first vacancies in the radical constituences.

The special committee on Cuba reforms state that they rejected immediate emancipation, because such a course would tend to a cessation of labor and outbreak of disturbances. A correspondent at Madrid hears unofficially that Premier Campos will support immediate abolition.

GENERAL RAILROAD NEWS.

At Chicago, Thursday, Judges Drummond and Gresham began the case of the St. Louis, Alton and Terre Haute Railroad Company against the Indianapolis and St. Louis Railroad Company, the Pennsylvania Railroad Company, the Cleveland, Columbus Cincinnati and Indianapolis Railroad Company and others, the point being as to the validity of the lease executed by the St. Louis and Alton to the Indianapolis and St. Louis Company. United States Supreme Court.

In the United States supreme court, Thursday, arguments in the *habeas corpus* case of A. F. Clarke was heard. Clarke was found guilty and sentenced to pay a fine of $250, and to twelve months' imprisonment for violation of duty as judge of election of congressman in October, 1878. He asks release on the ground that the statutory laws, under which he was indicted, were invalid. Judge Hoadley, on behalf of Clarke, argued that the United States court had no authority to inflict a penalty on a state officer for violation of duty under a state law, and that congress had no power to attach a penalty to a violation of state law. In reply, Atty. Gen. Devens argued, first, that congress has full and unqualified power to regulate the manner of holding elections for members thereof; second, that this power includes authority to adopt whatever measures may be deemed necessary or expedient in conducting such election and determining suits therein; and, third, that congress can punish any violation of the laws enacted or adopted under such record.

THE INDIANS.

A Call for Help From the Governor of Colorado—Secretary Schurz's Reply—The Utes Killing Settlers on Ashley Fork.

Secretary Schurz has received the following telegram from the governor of Colorado:

Oct. 23.—To Hon. Carl Shurz, Secretary of the Interior, Washington: Information from southwestern Colorado satisfies me that most of the Ouray warriors were in the Thornburgh fight. To surrender the criminals Ouray proposed to surrender his tribe which he is powerless to do. They adhere to him for protection only, and will not submit to punishment, neither will they surrender the White River Utes, who are bound to them by the closest ties, and who are no less guilty than themselves. They whipped Thornburgh's command and now want redress. They take take no prisoners except women. Their trophies are not banners but scalps. If the policy of the military inactivity continues our frontier settlements are liable to become scenes of massacre. Unless the troops move against the Indians the Indians will move against the settlers. Must 300 miles of border settlements be subjected to this peril. The state cannot defend all this border except by attacking the enemy. On behalf of our people I present this danger to you, and urge that the government recognize that war with the barbarians now exist which involves of numerous exposed settlements. It can be terminated only by the most vigorous and uninterrupted warfare.

(Signed) FREDERICK W. PITKIN, Gov.

To this message the secretary telegraphed the following reply:

Department of the Interior, Washington, Oct. 23.—Gov. Pitkin, Denver: Your dispatch has been received. I entrusted with the important duty of special agent to the Utes, Gen. Charles Adams, a citizen of Colorado, who a month ago was represented to me by yourself as a gentleman of excellent character, uncommon ability and energy, intimately acquainted with the utes, and eminently qualified to deal with them in an emergency. He is with them now, and his last report was that none of the southern, and only a part of the White River Utes have been engaged in the trouble, and all rumors of the depredations are untrue, excepting the driving off of horses from Bear River, and this was before Ouray's order to cease fighting was received. Gen. Adams reports this after having traversed southwest Colorado. He also states that the captive women and children, whom I have assurances are safe, will be delivered. Troops should not proceed south from White River, as I believe that your conditions to secure peace will be complied with. This report of a responsible man, who has your confidence as well as mine, and who speaks from personal observation, is certainly entitled to credit. The liberation of the captive women and children is the first thing to be accomplished. Gen. Adams expects to bring them in in a few days. He will then also report on the surrender of the guilty Indians, meanwhile military preparations are not relaxed. We are endeavoring to prevent a general war with the whole tribe. It is, therefore, earnestly hoped that every effort will be made to prevent any unnecessary trouble which may be precipitated by inconsiderate action.

[Signed] C. SCHURZ, Secretary.

A man arrived at Ogden, Utah, from Park City who reported the Utah Utes and Snakes on the war path, about three hundred warriors, settled on the Ashley Fork, were collecting together and building a fort.

Another man arrived from Green River Station, Union Pacific Railroad, who reports that the Utah Utes killed some settlers on Ashley Fork, and that they are coming toward Boroughs Hole, on the Green River.

Hon. George W. Frost, ex-agent of the Crow Indians, arrived and was honorably acquitted of charges made by the traders.

WISCONSIN WICKEDNESS.

Horrible Revelations Regarding the Milwaukee House of Correction.

A special dispatch to the Cincinnati *Enquirer* gives the details of recent developments in regard to the Milwaukee House of Correction. If the reports are true, the officers of this institution are the blackest hearted scoundrels of the century. These atrocious tales are told by a discharged convict who served two years on a charge of forgery. He claims that prisoners were subject to all manner of abuses, such as being fed on horse-flesh, dogs, cats, etc., *ad nauseam*, and being placed in instruments of torture which even the devilish ingenuity of the inquisition could not equal.

In corroboration of his statements, the writer shows bones taken from meat that are those of dogs and horses, and fibers of bones that are from abortive calves. For weeks they were fed on bread made from horse feed, sawdust, mill sweepings, and plaster of Paris. The "bread" was nothing more than a putty dough; the meat was a mess of the most abominable putrefaction, and consisted generally of putrid pigs' feet, glandered horses that had died, bovine embryos and poisoned dogs.

The barbarities practiced are of the most revolting nature. The punishment was by placing prisoners in vises and burning them with hot irons; imprisonment in dark, subterranean damp cells for weeks, cruel flogging and cold baths in the dead of winter. A number of prisoners who disappeared and cannot be found are charged to the keepers, who either starved them to death or killed them outright by cruel and inhuman treatment. The sick were never allowed to see physicians, and were starved off as soon as possible to get them out of the way.

Infernal machines of torture were used. Huge strips of sole-leather, driven full of tacks were placed around their naked bodies, and other such never-before-heard-of brutalities. A few days ago a sick man was put in the black hole and was not removed until a corpse. This horrid hole where the prisoner was killed is an old dry well, five feet five inches in diameter, and of uncertain depth.

The kidnapping of outside persons, generally ignorant country people, is frequent, and they are taken into the prison to make chairs to fill contracts. As high as eight a day have been brought in and put to work, without coming into the city or allowed the specter of a trial.

A HINT TO WORKINGMEN.

The honest workingmen of the country, many of whom have large and increasing families to support, have been the chief sufferers from the great financial pressure under which we have labored for the past few years. Diminished wrges have not been attended by a corresponding diminution in price of everything which the workingman needs. Rents, fuel, food and clothing, are cheaper, but these do not constitute all his necessities. It is sometimes necessary to employ a lawyer or a physician, yet the fee rates of physicians and lawyers are as high as they were in "flush" times. Yet cheap medicines are as necessary as cheap rents or fuel. Cheap medicines are not necessarily poor medicines. It must be obvious to every intelligent person that medicines, compounded and put up at wholesale, can be sold at much lower rates than when retailed from the doctor's pill bags. Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pellets have completely restored persons who had spent hundreds of dollars in vainly seeking relief from private practitioners, and all at a very slight expenditure.

BURNT AT SEA.

Rescue of Survivors of an Ocean Horror—Terrible Sufferings—Attacked by Sharks.

The captain of the steamer Louise, from Algiers, Africa, which hus just arrived at New Orleans, reports that on the 18th inst he picked up in the Bahama channel seventeen survivors of the burned steamer Newevo Pajaro Del Oceano, including Capt. Diaz and two mates. The steamer had a crew of forty-two and about twenty passengers aboard when the calamity occurred. The rescued were in a terrible state of exhaustation, having been clinging to floating planks for eighteen hours. The steamer left Havana October 16th for Nenevias with a general cargo of grain, provisions and amunition for the Spanish army. About 4 o'clock a. m., October 18th, when the vessel was in the Bahama straits, it took fire amidship, burned to the water's edge, and sunk in less than four hours. There were on board forty-two, of the crew twenty-three, and seventeen or twenty passengers, including six officers and soldiers of the Spanish army. The Luise picked up seventeen of the unfortunates, including the captain, two mates and one soldier. Gf this number, the captain and five or six of the crew were burned and otherwise injured. They were almost naked and in a fearful state from their long exposure to sun and water. Doubtless many were eaten by sharks, for the second mate and companion who were floating with a plank to support them had a narrow escape from one. Thirty-three of the passengers and crew are still missing.

SLAVERY IN CUBA.

Outline of Bills for Emancipation to be Presented to the Spanish Cortez.

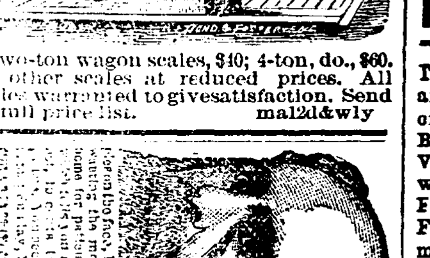

The bill for the abolition of slavery in Cuba, to be presented to the Spanish cortez, provides that slaves aged 55 years and over shall become free immediately; those aged 50, in September, 1880; those aged 45, in '82; those aged 40, in 84; those aged 35, in 86; those aged 30, in 88; and all others in 89. From 1880, 100,000 piasters will be charged on the Cuban budget for defraying the expenses of emancipation; 350 piasters will be paid to the owners of each slave. The government will, as much as possible, favor the immigration of free laborers to the island. The committee on reforms in Cuba have unanimously approved a bill providing that trade between Spain and Cuba shall only pay coasting duties, which shall be reduced one-third from the 1st of July, 1880, and entirely abolished in '83; also in favor of a moderate, differential duty bill, also to reduce by one-third, for a period of three years, duties on articles for consumption imported into Cuba, and to establish relations with the United States with a view of developing Spanish maritime trade between Cuba, Porto Rico and the United States.

Stock of the Wabash road still moves upward, and is on the point of fifty cents. Six months ago it was quoted at three cents, the excellent new connections in the west which the road is making doubtless being at the bottom of the great advance. The following shows the comparative earnings of the Wabash railway proper for the second week in October:

Second week in 1879...	$143,588.78
Second week in 1878...	105,157.14
Increase...	$ 38,431.59

The consolidation of the Wabash and the St. Louis, Kansas City and Northern railroads under one management, with the new name of Toledo, St. Louis & Pacific road, is the first instance in which there has been a real union or amalgamation of railroad corporations east and west of the Mississippi. It is a frequent occurrence for the railroad magnates of the east to gobble up a majority of the stock of such western lines as they wish to utilize, and also to build branches and feeders in the west; but never before have different roads, east and west of the Mississippi, been united in one corporate body. The new concern will be a powerful one, and will cause another remodeling of railroad maps and combinations.

The following from the Indianapolis *Journal* explains the sudden departure of Harry Parker from our midst to take charge of the Empire Line office at Peoria: "William Cones, agent of the Empire Line at Peoria, Ills., it is stated has become hopelessly insane. Mr. Cones was for many years clerk in the Empire Line office at this point under J. Murray, and has many friends at this point who will regret to hear of his sad affliction."

SOUND SENSE.

"What's the Matter with the Democratic Party?"

To the Editor of the SENTINEL:

CONVOY, O., Oct. 23.—The remarks made by the SENTINEL in its issue of the 18th inst. on "What's the matter with the democratic party," are correct to the letter. All the platform it needs is reform in all departments of government, both civil and military, foreign and domestic; rigid economy in all public expenditures; tariff for revenue only; a large increase in our merchant marine; carrying our own productions in our own ships, manned by our own sailors, under our own flag; the abolition of class legislation or legislation in favor of the wealthy at the expense of the laborer; no more coalition at the expense of principle. The Ohio idea has lost Ohio to the democracy this fall as is conceded by all that we have heard express an opinion. Our currency is good enough as it is and it is democratic legislation that has given it its present stability, and democrats should let well enough alone. Its large doses of Greeleyism and nationalism or greenbackism, ought to be, in all conscience, cathartic enough to remove all morbid aspirations for coalition with incongruent elements; and every time put up men for standard bearers who are true exponents of correct democratic principles. CONVOY.

BENEFACTORS.

When a board of eminent physicians and chemists announced the discovery that by combining some well-known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical; but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

Harmon Manwiler, an employe of the Wabash boiler shops, got his foot terribly bruised yesterday afternoon by a heavy sheet of steel falling on it.

Newton E. Cook, a switchman in the Wabash yard, allowed a car to run over his thumb yesterday. That thumb ain't of much account now—except to bottle up and look at.

Stock of the Wabash road still moves upward, and is on the point of fifty cents. Six months ago it was quoted at three cents, the excellent new connections in the west which the road is making doubtless being at the bottom of the great advance. The following shows the comparative earnings of the Wabash railway proper for the second week in October:

Second week in 1879	$143,588.73
Second week in 1878	105,157.14
Increase	$ 38,431.59

The consolidation of the Wabash and the St. Louis, Kansas City and Northern railroads under one management, with the new name of Toledo, St. Louis & Pacific road, is the first instance in which there has been a real union or amalgamation of railroad corporations east and west of the Mississippi. It is a frequent occurrence for the railroad magnates of the east to gobble up a majority of the stock of such western lines as they wish to utilize, and also to build branches and feeders in the west; but never before have different roads, east and west of the Mississippi, been united in one corporate body. The new concern will be a powerful one, and will cause another remodeling of railroad maps and combinations.

The following from the Indianapolis *Journal* explains the sudden departure of Harry Parker from our midst to take charge of the Empire Line office at Peoria: "William Cones, agent of the Empire Line at Peoria, Ills., it is stated has become hopelessly insane. Mr. Cones was for many years clerk in the Empire Line office at this point under J. Murray, and has many friends at this point who will regret to hear of his sad affliction."

SOUND SENSE.

"What's the Matter with the Democratic Party?"

To the Editor of the SENTINEL:

Convoy, O., Oct. 23.—The remarks made by the SENTINEL in its issue of the 18th inst. on "What's the matter with the democratic party," are correct to the letter. All the platform it needs is reform in all departments of government, both civil and military, foreign and domestic; rigid economy in all public expenditures; tariff for revenue only; a large increase in our merchant marine; carrying our own productions in our own ships, manned by our own sailors, under our own flag; the abolition of class legislation or legislation in favor of the wealthy at the expense of the laborer; no more coalition at the expense of principle. The Ohio idea has lost Ohio to the democracy this fall as is conceded by all that we have heard express an opinion. Our currency is good enough as it is and it is democratic legislation that has given it its present stability, and democrats should let well enough alone. Its large doses of Greeleyism and nationalism or greenbackism, ought to be, in all conscience, cathartic enough to remove all morbid aspirations for coalition with incongruent elements; and every time put up men for standard bearers who are true exponents of correct democratic principles. CONVOY.

BEASTLY BEGGARS.

A Miserable Nest of Them on East Main Street.

A Father Who Sends His Children Out to Beg.

Some time ago the SENTINEL called attention to the fact that a nest of Italians was located at No. 88 East Main street. A SENTINEL reporter was informed this morning that it was now a nest of beggars. The head of the family is a peanut vender and is the father of three children whom he lends out to other parties to beg with. The youngest, a child fifteen months old, is in the possession of a single woman who carries it about the streets representing it as her child and herself a widow, saying she can do no work, and must support her child, and winds up by asking for alms. The next is a boy about three or four years old, who is trained the same way, and sometimes goes out himself and asks for "a penny to buy bread." The marshal should investigate the case.

RAILROAD MEN'S CONVENTION

Meeting of the P., Ft. W. & C. R. W. Mutual Benefit Association.

List of Delegates--Address of the President.

The sixth annual convention of the Pittsburgh, Fort Wayne and Chicago Railway Mutual Benefit Association met, at Harmony Hall, at 10.30 this morning. The meeting was called to order by H. W. Wyncoop, superintendent of telegraph at Crestline, O., and president of the association. Rev. McFarland offered an appropriate prayer, after which C. R. Higgins, of this city, J. E. Weldon of Chicago, and Joseph White of Crestline, were appointed committee on credentials. They reported delegates from the different divisions as follows:

42	T J Hutchinson		

The reading of the minutes of the previous meeting was dispensed with and the president delivered his annual address.

His address was short, simply congratulating the association on its success and prosperity. He stated the total amount of losses paid since the last annual meeting to be over $43,000. He further recommended the adoption of Crestline as a place for holding future conventions, or that the association pay the expenses of members in attending at other points.

He suggested the adoption of a rule excluding female employes from the benefits of the association, as he considered the ruling of the executive committee, making such exclusion, a violation of article I. of the by-laws as it now stands.

The president appointed the following committee on constitution and by-laws:

Samuel White, Crestline; J R Williams, Allegheny; Byron Davis, Fort Wayne; John Wintenstein, Tiffin, O.; Albert Gray, Wooster; Thomas Adams, Chicago; C W Holdridge, Upper Sandusky.

The president then appointed the following special committee:

T J Hutchinson, Fort Wayne; H C Maguire, Crestline; G L Peck, Toledo; J K McCracken, Fort Wayne; J Pinckney, Sharpsville; James Rager, New Brighton; D L Daniels, Youngstown.

The annual reports of the general secretary and treasurer were read and on motion of Mr. Hutchinson were adopted.

On motion the convention took a recess till 1:30 p. m.

AFTERNOON SESSION.

The delegates returned slowly and apparently much refreshed by their experience at Barcus's. The cigars were passed around, and by this kindness of the Fort Wayne members, all were made happy.

The convention was called to order at 1.40, the president in the chair.

The report of the executive committee was read by the secretary in the absence of the committee's chairman.

On motion of H. M. Diehl, the report was received.

The report of the auditing committee was read by the secretary, who reported the books of the association in proper shape.

A motion was made to refer the case of Mr. Hedges, who claimed damages for a disabled hand, to a special committee, the executive committee having decided against his claim. After some discussion the motion was carried.

A resolution was offered to the effect that all delegates to future conventions be paid at the rate of $3 per day.

This gave rise to a rather lively discussion.

One member suggested that as their fare didn't cost anything, and board while here didn't cost anything, and as far as he knew drinks didn't cost anything, he could not see why any pay should be demanded.

The resolution was finally referred to the special committee.

A motion to require applicants for membership to give a physician's certificate of health was also referred to the special committee.

A recess of fifteen minutes was then taken to allow the committees time to report.

The three dollar delegate became decidedly funny during the recess, and afforded much amusement by his singing.

The convention was again called to order at 3 p. m, and the committee on constitution a by laws reported in favor of referring all applicants for admission to show a certificate of good health from some physician in the employ of the Pennsylvania road, and also recommended that the close of the fiscal year be made the last day of August, and that the annual meetings be held in September.

The McHale Literary Society met last night at Library Hall, and, after transacting the usual business, listening to the delivery of a declamation and the reading of an interesting essay, resolved to give another public musical and literary entertainment on Tuesday evening, November 11th. An interesting programme will be presented and, as the entertainment is free, it is safe to say that the Library Hall will be crowded to its utmost capacity.

TONY'S TUMBLE.

The Councilman--ic Wedding --Goes Off With a Bang.

Interesting Account of the Reception at the East End Brewery Last Night.

There was once,
And it was last night,
A meeting—
An adjourned meeting—
Of the common council of the great city
Of Fort Wayne, and it was
Held at the East
End Brewery, because Tony
Dreyer did get married. This was on the 23d
Day of October, 1879, A. D.

Tony got married very much,
And the council enjoyed it very much,
And the city officers enjoyed it very much,
And the reporters enjoyed it very mucher,
And the guests enjoyed it very much,
And Mart Spencer enjoyed it very much,
And everybody enjoyed it very much.

When the city officers
Arrived,
They were accompanied
By
A fine silver pitcher,
But they returned minus
The pitcher, because it
Was presented to Mr. and Mrs.
A. T. Dreyer and
Montgomery Hamilton
Made the speech. He said:
On behalf
Of the city officials,
I present you
With this slight
Testimonial
Of the esteem in
Which you
Are held by your
Colleagues
And as an evidence of
Their congratulations
On your marriage. Their
Wishes that your
"Resolutions"
May
Always be good, your
"Petitions"
Always granted, your
"Ordinances" ever
Right, that your
"Rules"
Will never
Be
"Suspended,"
That no previous
Question or "the vote"
Shall arise,
And there shall
Never be
Occasion for
A "remonstrance,"
And that
"Adjournment"
Will be postponed
Until many
Years in the
"Future."
Or words to
That effect.
And there was some eating to do
And it was done,
You bet.
And Tom Meegan
Didn't bust,
But almost he did.
And beer was there and
Wine was there and cigars
Were there and dancing was
There and a
Good time was had
Until late this morning,
When everybody
Went
Home well satisfied
And wishing Tony many
Long years of
Happiness and prosperity.
Amen.

THE RAILROADS.

This is pay day on the Wabash.

Train Dispatcher Walton left for Chicago this morning.

Engineer Reiley is now running the west local on the Pittsburg, in place of Wm. Timmis, who has taken a trip to the eastern watering places.

Pittsburgh passenger train No. 3, was three hours late this morning.

Ed Stanley, the popular passenger brakeman on the Pittsburgh road, is on the sick list.

Engine 116 is in the Pittsburgh shops for repairs.

James Cannon, of the Pittsburgh, formerly fireman for Mart Burke of 188, has been transferred to engine 179, "Spiker," engineer.

There were two sections of No. 3 on the Pittsburgh this morning, both of which were late.

The Wabash boys will "ball" next Tuesday.

Bounced by Bonter.

On day before yesterday three tramps were aboard the Grand Rapids train going north. Conductor Bonter politely requested them to pay their fare or get off. They refused to do either. Bonter pulled the bell-cord and stopped the train, when the tramps showed fight. He went ahead and got the engineer, who returned with him, and together they put them off the train and made things pleasant for them besides. As the train moved off the tramps fired a lot of stones, etc., through the windows of the cars, but happily hurt no one.

AWFUL AUGUSTUS.

A Much-Married Man, According to the Opinion of One of His Wives.

This morning Augusta Radomski complained in the mayor's court that her alleged husband, August Zerulla, had attempted to provoke her by calling her very hard names. She therefore had him arrested by Constable Detective Westrumb upon the above named charge. Augustus and Augusta were married in this city about a month or more ago and their course of married love does not run very smooth from appearances.

Mrs. Zerulla has had good reason believe of late, that her liege lord was not the clear wool goods he should be, as he has, she says, been receiving letters from the "old country" from another woman claiming to be his wife. Accordingly Augusta has been in hot water ever since it came to her knowledge that Augustus was so much married as that.

Zeruela is a stone mason in the employ of Fred Tapp, the bridge builder, and is said to be illiterate. He stated in court this morning that he had five wives and twenty-five children living, and they were his own stock, too. He acknowledged that he had one wife and three children living in Germany, and that was nobody's business. America is a free country, and what he has in Germany concerns nobody in America. He will have his trial on the provoke charge this afternoon. His better half has taken advantage of the circumstances and adopted her maiden name.

He was fined $5 and costs amounting to $18.20.

In his meanderings to-day, our worthy reporter happened to drop into the popular tailoring parlors of A. Foster, No. 80 Calhoun street. Here the reportorial optics were met on all sides by a bewildering array of fancy fall suitings. It would be impossible to convey to our readers any idea of the endless variety of fancy piece goods found here. Suffice it to say that A. Foster has the finest stock in the city and enjoys a deserved popularity on account of his matchless fits. We would advise our readers to call and see him. 9,17

A Father Who Sends His Children Out to Beg.

Some time ago the SENTINEL called attention to the fact that a nest of Italians was located at No. 88 East Main street. A SENTINEL reporter was informed this morning that it was now a nest of beggars. The head of the family is a peanut vender and is the father of three children whom he lends out to other parties to beg with. The youngest, a child fifteen months old, is in the possession of a single woman who carries it about the streets represent ing it as her child and herself a widow, saying she can do no work, and must support her child, and winds up by asking for alms. The next is a boy about three or four years old, who is trained the same way, and sometimes goes out himself and asks for "a penny to buy bread." The marshal should investigate the case.

RAILROAD MEN'S CONVENTION

Meeting of the P., Ft. W. & C. R. W. Mutual Benefit Association.

List of Delegates--Address of the President.

The sixth annual convention of the Pittsburgh, Fort Wayne and Chicago Railway Mutual Benefit Association met, at Harmony Hall, at 10.30 this morning. The meeting was called to order by H. W. Wyncoop, superintendent of telegraph at Crestline, O., and president of the association. Rev. McFarland offered an appropriate prayer, after which C. R. Higgins, of this city, J. E. Weldon of Chicago, and Joseph White of Crestline, were appointed committee on credentials. They reported delegates from the different divisions as follows:

42	T J Hutchinson		

The reading of the minutes of the previous meeting was dispensed with and the president delivered his annual address.

His address was short, simply congratulating the association on its success and prosperity. He stated the total amount of losses paid since the last annual meeting to be over $43,000. He further recommended the adoption of Crestline as a place for holding future conventions, or that the association pay the expenses of members in attending at other points.

He suggested the adoption of a rule excluding female employes from the benefits of the association, as he considered the ruling of the executive committee, making such exclusion, a violation of article I. of the by-laws as it now stands.

The president appointed the following committee on constitution and by-laws:

Samuel White, Crestline; J R Williams, Allegheny; Byron Davis, Fort Wayne; John Winstestein, Tiffin, O.; Albert Gray, Wooster; Thomas Adams, Chicago; C W Holdridge, Upper Sandusky.

The president then appointed the following special committee:

T J Hutchinson Fort Wayne; H C Maguire, Crestline; G L Peck, Toledo; J K McCracken, Fort Wayne; J Pinckney, Sharpsville; James Rager, New Brighton; D C Danie.s, Youngstown.

The annual reports of the general secretary and treasurer were read and on motion of Mr. Hutchinson were adopted.

On motion the convention took a recess till 1:30 p. m.

AFTERNOON SESSION.

The delegates returned slowly and apparently much refreshed by their experience at Barcus's. The cigars were passed around, and by this kindness of the Fort Wayne members, all were made happy.

The convention was called to order at 1.40, the president in the chair.

The report of the executive committee was read by the secretary in the absence of the committee's chairman.

On motion of H. M. Diehl, the report was received.

The report of the auditing committee was read by the secretary, who reported the books of the association in proper shape.

A motion was made to refer the case of Mr. Hedges, who claimed damages for a disabled hand, to a special committee, the executive committee having decided against his claim. After some discussion the motion was carried.

A resolution was offered to the effect that all delegates to future conventions be paid at the rate of $3 per day.

This gave rise to a rather lively discussion.

One member suggested that as their fare didn't cost anything, and board while here didn't cost anything, and as far as he knew drinks didn't cost anything, he could not see why any pay should be demanded.

The resolution was finally referred to the special committee.

A motion to require applicants for membership to give a physician's certificate of health was also referred to the special committee.

A recess of fifteen minutes was then taken to allow the committees time to report.

The three dollar delegate became decidedly funny during the recess, and afforded much amusement by his singing.

The convention was again called to order at 3 p. m, and the committee on constitution a by laws reported in favor of referring all applicants for admission to show a certificate of good health from some physician in the employ of the Pennsylvania road, and also recommended that the close of the fiscal year be made the last day of August, and that the anuual meetings be held in September.

The McHale Literary Society met last night at Library Hall, and, after transacting the usual business, listening to the delivery of a declamation and the reading of an interesting essay, resolved to give another public musical and literary enteriainment on Tuesday evening, November 11th. An interesting programme will be presented and, as the entertainment is free, it is safe to say that the Library Hall will be crowded to its utmost capacity.

TONY'S TUMBLE.

The Councilman--ic Wedding --Goes Off With a Bang.

Interesting Account of the Reception at the East End Brewery Last Night.

There was once,
And it was last night,
A meeting—
An adjourned meeting—
Of the common council of the great city
Of Fort Wayne, and it was
Held at the East
End Brewery, because Tony
Dreyer did get married. This was on the 23d
Day of October, 1879, A. D.

Tony got married very much,
And the council enjoyed it very much,
And the city officers enjoyed it very much,
And the reporters enjoyed it very mucher,
And the guests enjoyed it very much,
And Mart Spencer enjoyed it very much,
And everybody enjoyed it very much.

When the city officers
Arrived,
They were accompanied
By
A fine silver pitcher,
But they returned minus
The pitcher, because it
Was presented to Mr. and Mrs.
A. T. Dreyer and
Montgomery Hamilton
Made the speech. He said:
On behalf
Of the city officials,
I present you
With this slight
Testimonial
Of the esteem in
Which you
Are held by your
Collagues
And as an evidence of
Their congratulations
On your marriage. Their
Wishes that your
"Resolutions"
May
Always be good, your
"Petitions"
Always granted, your
"Ordinances" ever
Right, that your
"Rules"
Will never
Be
"Suspended,"
That no previous
Question or "tie vote"
Shall arise,
And there shall
Never!—
Be occasion for
A "remonstrance,"
And that
"Adjournment"
Will be postponed
Until many
Years in the
"Future."
Or words to
That effect.
And there was some eating to do
And it was done,
You bet.
And Tom Meegan
Didn't bust,
But almost he did.
And beer was there and
Wine was there and cigars
Were there and dancing was
There and a
Good time was had
Until late this morning,
When everybody
Went
Home well satisfied
And wishing Tony many
Long years of
Happiness and prosperity.
Amen.

Bounced by Bonter.

On day before yesterday three tramps were aboard the Grand Rapids train going north. Conductor Bonter politely requested them to pay their fare or get off. They refused to do either. Bonter pulled the bell-cord and stopped the train, when the tramps showed fight. He went ahead and got the engineer, who returned with him, and together they put them off the train and made things pleasant for them besides. As the train moved off the tramps fired a lot of stones, etc., through the windows of the cars, but happily hurt no one.

AWFUL AUGUSTUS.

A Much-Married Man, According to the Opinion of One of His Wives.

This morning Augusta Radomski complained in the mayor's court that her alleged husband, August Zerulla, had attempted to provoke her by calling her very hard names. She therefore had him arrested by Constable Detective Westrumb upon the above named charge. Augustus and Augusta were married in this city about a month or more ago and their course of married love does not run very smooth from appearances.

Mrs. Zerulla has had good reason believe of late, that her liege lord was not the clear wool goods ho should be, as he has, she says, been receiving letters from the "old country" from another woman claiming to be his wife. Accordingly Augusta has been in hot water ever since it came to her knowledge that Augustus was so much married as that.

Zeruela is a stone mason in the employ of Fred Tapp, the bridge builder, and is said to be illiterate. He stated in court this morning that he had five wives and twenty-five children living, and they were his own stock, too. He acknowledged that he had one wife and three children living in Germany, and that was nobody's business. America is a free country, and what he has in Germany concerns nobody in America. He will have his trial on the provoke charge this afternoon. His better half has taken advantage of the circumstances and adopted her maiden name.

He was fined $5 and costs amounting to $18.20.

THE COURTS.

CIRCUIT.

Dismissed—William Rogers et al vs Sandford Rich et al.

OPENING

Of

Fall and winter millinery at M. McConnell & Co.'s on Thursday and Friday, October 23rd and 24th. 10,20,6

In his meanderings to-day, our worthy reporter happened to drop into the popular tailoring parlors of A. Foster, No. 80 Calhoun street. Here the reportorial optics were met on all sides by a bewildering array of fancy fall suitings. It would be impossible to convey to our readers any idea of the endless variety of fancy piece goods found here. Suffice it to say that A. Foster has the finest stock in the city and enjoys a deserved popularity on account of his matchless fits. We would advise our readers to call and see him. 9,17
